

As of April 20, 2020

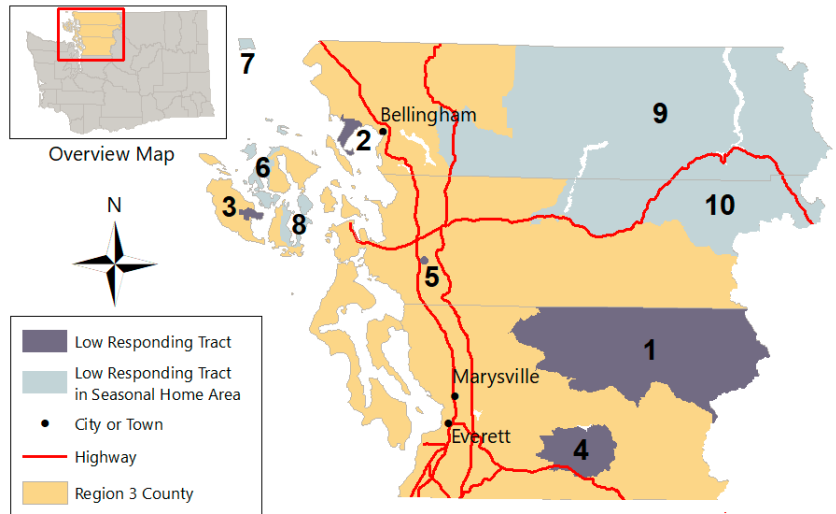

Region 3: Northwestern Washington

Island, San Juan, Skagit, Snohomish & Whatcom counties

Tracts with Low Self-Response Rates

Find the following information in the table below:

1. The 2020 Census tract number, the county in which this tract is located, and the nearest city/place to that Census tract
2. The self-response rate of this tract to date
3. The "hard-to-survey" populations contributing to a potentially lower response rate for that tract as identified by the Census Bureau
4. The 2020 Census outreach and education coalition partners located nearest to that tract and any other helpful demographic geographic characteristics that may facilitate targeted outreach

Map #	Tract # County Nearest City/Place	Response Rate	Predicted Low Response Factors (per Census Bureau)	Nearest Coalition Partners and Relevant Tract Features
1	Tract: 537 County: Snohomish City/Place: Darrington	19.1% Difference from 2010 Mail-In: -61.2%	89% white 29% renters 15% below poverty level 16% no internet 16% vacant	
2	Tract: 9400.02 County: Whatcom City/Place: Lummi Indian Reservation	33.5% Difference from 2010 Mail-In: -39.3%	38% white 49% American Indian/Alaskan Native 35% renters 22% below federal poverty level 14% no internet 24% moved in 2015 or later 14% vacant	Lummi Indian Reservation, Community to Community
3	Tract: 9604 County: San Juan City/Place: Friday Harbor	35.6% Difference from 2010 Mail-In: -45%	12% Latino 47% renters 15% no internet 20% moved in 2015 or later 25% vacant	
4	Tract: 538.03 County: Snohomish City/Place: Gold Bar	36.1% Difference from 2010 Mail-In: -44.8%	10% Latino \$63,000 median household income 15% no internet 16% moved in 2015 or later 5% vacant	Hopelink (Kirkland/North Shore Foodbank, nearby in region 4)
5	Tract: 9524.05 County: Skagit City/Place: Mount Vernon	36.5% Difference from 2010 Mail-In: -42.3%	58.0% white 32.5% Latino 28.1% renters 22.7% no internet \$61,000 median household income 12% below poverty level	

Response Rates for Native Communities

This table highlights the response rates in tribal areas across NW Washington (Region 3). Where data are available, low response factors listed below display relevant statistics for those living in the listed Tribe's lands (including reservation and off-reservation trust land).

Tribe	County	Response Rate	Predicted Low Response Factors (per Census Bureau)
Lummi Nation Indian Reservation	Whatcom	40.5% Difference from 2010 Mail-In: -17.1%	54.1% American Indian/Alaska Native 41.0% white 31.7% renters 19.0% below poverty level \$53,500 median household income 18.6% no internet
Nooksack Indian Reservation	Whatcom	39.9% Difference from 2010 Mail-In: +2.6%	76.6% American Indian/Alaska Native 47.8% renters 33.6% below poverty level \$44,500 median household income 17.1% no internet
Samish Indian Reservation	Skagit	No data	No data
Sauk-Suiattle Indian Reservation	Skagit	26.1% Difference from 2010 Mail-In: -3.9%	92.1% American Indian/Alaska Native 7.9% white 0% Latino 33.3% renters 15.5% below poverty level \$58,800 median household income 0% no internet 19% single female head of household with children
Stillaguamish Indian Reservation	Snohomish	No data	No data
Swinomish Indian Reservation	Skagit	50.3% Difference from 2010 Mail-In: -10.9%	20.7% American Indian/Alaska Native 76% white 20% renters 10.4% below poverty level \$64,200 median household income 13.4% no internet 17.4% vacant
Tulalip Indian Reservation	Snohomish	47.5% Difference from 2010 Mail-In: -16.1%	22.7% American Indian/Alaska Native 70.8% white 6.4% Latino 22.6% renters 10.1% below poverty level \$78,700 median household income 15.3% no internet
Upper Skagit Indian Reservation	Skagit	22.2% Difference from 2010 Mail-In: -22.1%	83.5% American Indian/Alaska Native 9.4% Latino 64.8% renters 28.4% below poverty level \$34,200 median household income 24.2% no internet 19.8% single female head of household with children
Marietta Band of Nooksack Tribe	Whatcom	No data	No data
Snohomish Tribe	Snohomish	No data	No data
Snoqualmoo Tribe	Island	No data	No data

Tracts with Relatively High Percentages of Seasonally Vacant Units *and* Low Response Rates

This table highlights tracts with low self-response rates to date that contain a relatively high percentage (>30%) of seasonally vacant units (e.g., summer homes, second residences, cabins) where many respondents likely have a “usual home elsewhere,” targeted outreach may not be effective, and Census Bureau staff will classify many of the seasonally vacant homes during nonresponse follow-up.

Map #	Tract # County Nearest City/Place	Response Rate
6	Tract: 9601.03 County: San Juan City/Place: Orcas Island	16.5%
7	Tract: 110 County: Whatcom City/Place: Point Roberts	16.7%
8	Tract: 9605.02 County: San Juan City/Place: Lopez Island	16.9%
9	Tract: 101.03 County: Whatcom City/Place: Glacier	19.1%
10	Tract: 9511.01 County: Skagit	19.5%

Additional

Tract 9702 exhibits a low response rates and also contains a military base whose residents will be enumerated via the Group Quarters or other Census operations, so targeted outreach within these tracts may not be as effective as in other tracts with low response rates.

Tract	County	Nearest City/Place
9702	Island	Whidbey Island Station
