King County

Tracts with Low Self-Response Rates

Find the following information in the table below:

1. The 2020 Census tract number, the county in which this tract is located, and the nearest city/place to that Census tract (*note: some tracts have been displayed with an enlarged point to be viewable at the regional scale*)
2. The self-response rate of this tract to date
3. The "hard-to-survey" populations contributing to a potentially lower response rate for that tract as identified by the Census Bureau
4. The 2020 Census outreach and education coalition partners located nearest to that tract and any other helpful demographic geographic characteristics that may facilitate targeted outreach

Map #	Tract # County Nearest City/Place	Response Rate	Predicted Low Response Factors (per Census Bureau)	Nearest Coalition Partners and Relevant Tract Features

Response Rates for Native Communities

This table highlights the response rates in tribal areas across King County. Where data are available, low response factors listed below display relevant statistics for those living in the listed Tribe's lands (including reservation and off-reservation trust land).

Tribe	County	Response Rate	Predicted Low Response Factors (per Census Bureau)
Muckleshoot Indian Reservation	King	54.5% Difference from 2010 Mail-in: -3.7%	28% American Indian/Alaska Native 52.5% white 19.1% Latino 37.1% renters 20.1% below poverty level \$51,700 median household income 22.5% no internet
Snoqualmie Indian Tribe	King	No data	No data
Duwamish Tribe	King	No data	No data
Kikiallus Indian Nation	King	No data	No data

Additional

The following tracts exhibit low response rates but also contain schools, military bases and other facilities whose residents will be enumerated via the Group Quarters or other Census operations, so targeted outreach within these tracts may not be as effective as in other tracts with low response rates.

Tract	County	Nearest City/Place
53.03	King	Seattle
53.04	King	Seattle
53.05	King	Seattle
53.07	King	Seattle
